THE ONLY ORIGINAL FRUIT PUREE MIX SINCE 1990

Company Profile

In 1990 Mixer launched the original shelf stable concentrate fruit puree mix in barman friendly bottles and today our brand can be found in 40 countries. With over 25-year expertise in manufacturing and sourcing the best raw materials available we ensure always that each bottle sold from our production unit meets the standard food safety requirements HACCP and ISO 22000.

Our expanding portfolio of fruit purees, premixes, juice cordials and syrups will offer excellent quality and improved drink yields delivering down the distribution chain profitability, multifunctional use and above all happy customers. With Mixer, you can save time and money on perishable ingredients and we can deliver healthy profit margins to bar business thanks to our effective drink programs.

Our sales offices and warehouse are located in Bologna northern Italy and our fully owned production unit is near Brescia. The manufacturing process and R&D are completely made in ITALY.

Our key clients are Importers in F&B, bars, coffee shops, restaurants, catering services, cruise liners, QSR accounts and on line sales platforms.

What Our Customers Say:

When you open a bottle it feels like cutting into a fresh fruit – the smell and the taste is all natural and almost overwhelming, Mixer created a real taste sensation with fantastic yield – just use a few ml for a cocktail, milkshake, smoothie, ice tea or any dessert. It is so concentrated it really blows your mind. Mixer products help to cut down on preparation time, reduce wastage and deliver absolute consistency with every serve.

Concentrate Fruit Puree & Bar Mixes

Mixer concentrate puree mixes are non-alcoholic fruit preparations made from 100% real fruit puree. With a higher fruit and lower sugar content, Mixer purees work well with many ingredients such as coffee, tea, soda, milk, yoghurt and ice cream so they are widely usable for preparation of cocktails, smoothies,

lemonades or sodas, milkshakes, fresh-brewed teas, slushes as well as specialty coffee beverages and a wide range of culinary applications. Mixer selects the extra-high grade fruit cultures from the best growing regions worldwide, choosing only the perfect variety with an intense flavour profile.
